

# M.TECH. (AI)

Two-year Degree Programme in Artificial Intelligence  
at the Indian Institute of Science (IISc), Bengaluru offered by  
the Division of Electrical, Electronics, and Computer Sciences (EECS)

## PROGRAMME STRUCTURE

This is a joint degree programme offered by the four departments of the Division of Electrical, Electronics, and Computer Sciences (EECS). Students will get foundational training in machine learning and artificial intelligence. Students will work on a research and development project with state-of-the-art computational and experimental facilities which will likely lead to publications, patents, products, or software.

## HIGHLIGHTS

1. Joint programme of the Division of Electrical, Electronics, and Computer Sciences.
2. Training in foundations and tools, algorithms and techniques, computational platforms, and transformative applications.
3. Curriculum tailored to bring students to the forefront of AI research and development.
4. One year project to make students the creators of futuristic applications of AI.
5. Develop soft skills of students.
